DOC Switching Tablet Vendors

The Wisconsin Department of Corrections (DOC) is partnering with ICSolutions to provide [tablet services](#) to persons in our care (PIOCs).

DOC is gradually making the transition to the ICS tablet at a few sites each month. With this change in tablet service, a Wi-Fi build-out is necessary at each site and impacts the roll-out schedule. The first three sites to receive ICS tablets in March are Sanger B. Powers Correctional Center (SBPCC), Green Bay Correctional Institution (GBCI), and Waupun Correctional Institution (WCI). Roll-out schedules and information will be posted on the Adult Facilities page at doc.wi.gov as it becomes available. Please see the tentative roll-out schedule below. Family and friends wanting to message or send photos to a PIOC with an ICS tablet will need to create a GTL account with Getting Out by either downloading the app or going to the website at www.gettingout.com. Please see the [linked document](#) for instructions on creating an account. Funds to send messages and photos will be applied in the same manner as phone calls and video visits.

For those with a CorrLinks account, please do not close the account in the event your loved one transfers to a site that has not transitioned to the ICS tablet. A PIOC will only have access to the Advanced Technologies Group (ATG) CorrLinks system on their ATG tablet/kiosk until the ICS tablet is issued. Be cautious about sending CorrLinks messages as the go-live date approaches. A message sent through CorrLinks after the go-live date for the new ICS tablet will not be received or refunded. PIOCs are responsible to share the tablet go-live date with family and friends. Please discontinue purchasing ATG tablets as we prepare for this transition.

Tablet Roll-out Schedule:

Group	Site/s	Go-Live Estimated Date
1	SBPCC/GBCI	3/5/24
2	WCI	3/11/24
3	OSCI	April 2024
4	WSPF/PDCI	PDCI 4/11/24, WSPF 4/10/24
5	CCI, OCI, OCC, TCC, RGCI, NLCI	CCI 5/21/24, OCI and OCC 4/16/24, TCC/RGCI/NLCI TBD
6-11	Additional sites will post in future communication	TBD
