RISK LEVEL AND CRIMINOGENIC NEEDS

Client Risk Level

The client risk level represents a calculated likelihood of the risk to re-offend and is used, in part, to determine how closely clients are supervised.

Recommended Risk Level	% of Clients as of June 30, 2025
Low	48%
Medium	32%
High	14%
Undetermined as of report date	5%

Criminogenic Needs

Criminogenic needs are attributes of clients that are directly linked to criminal behavior. Effective correctional treatment targets these dynamic criminogenic needs through interventions and case plans.

The DOC uses the COMPAS assessment, a research-based assessment tool to identify client risk level and criminogenic needs.
