Wisconsin Department of Corrections

# **Community Supervision**

The Wisconsin Department of Corrections (DOC), Division of Community Corrections (DCC) supervises clients placed on probation or released from prison on parole or extended supervision. Supervision is community-based to strengthen the family unit, encourage lawful behavior, and provide local treatment programs.

The probation and parole agents of DCC supervise clients in the community and aid in sentencing and reentry planning. In addition, they provide investigative services to the courts, to DOC's Division of Adult Institutions, and to the Parole Commission. Under limited circumstances, agents supervise both juveniles released to aftercare programs and clients conditionally released from mental health facilities.

# **Regional Population**

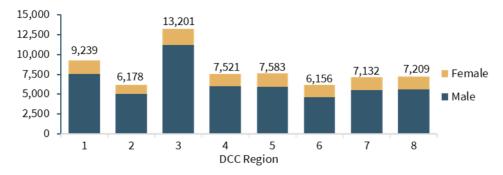

DCC is made up of eight regions, each led by a Regional Chief located at a regional office within that region. The overall client population, as of June 30, 2022, was **64,219**.

### Total Number of Staff and Clients by Region

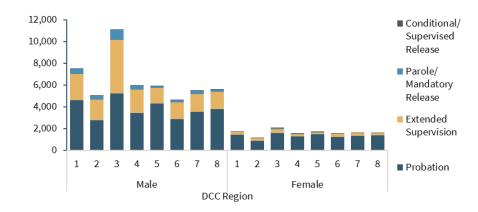

The DCC staff count includes **all** staff classifications, including supervisory and support staff. These numbers should not be used to infer client to staff ratios or to make other comparisons.

### Client Population by Gender and Region

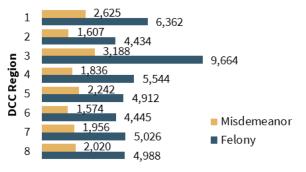

# **Regional Population**

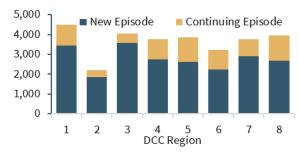

### Client Population by Region, Case Type, and Gender

### **Client Population by Region and Offense Severity**

The total count of DCC clients as of June 30, 2022 whose most serious offense was a felony was 45,375. The total count of DCC clients as of June 30, 2022 who most serious offense was a misdemeanor was 17,048. Not shown in this graph are 1,796 unknown most serious offense severity cases (i.e. interstate compact, probation deferred, and supervised or conditional release type offenses).

### New Probation Case Count by Region

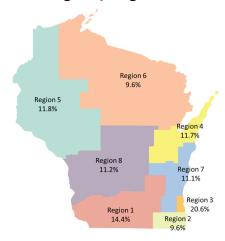

The total number of clients with probation cases that were ordered in fiscal year 2022 was 21,239, encompassing 29,347 probation cases. Of these, 17,216 clients started new episodes of supervision with DCC. Of these, 8,897 clients were new intakes (first time) with DOC.

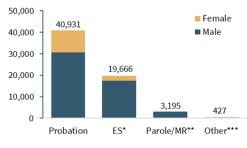

# **Statewide Population**

On June 30, 2022, the overall population was **64,219** clients.

### Population Breakdown in Percentages by Region

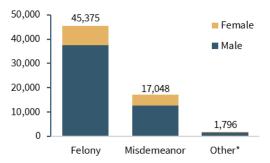

### By Gender and Supervision Type

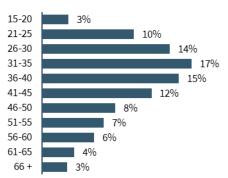

- \* Extended Supervision
- \*\* Mandatory Release
- \*\*\* Supervised and conditional release

### By Gender and Offense Severity

\* Interstate compact, probation deferred, and supervised or conditional release

### By Gender, Race, and Ethnicity

| Category                       | Male  | Female |
|--------------------------------|-------|--------|
| <u>Race</u>                    |       |        |
| White                          | 65.4% | 72.3%  |
| Black                          | 28.7% | 19.0%  |
| American Indian/Alaskan Native | 4.0%  | 7.4%   |
| Asian or Pacific Islander      | 1.5%  | 0.9%   |
| No Data/Unknown                | 0.4%  | 0.5%   |
| <u>Ethnicity</u> *             |       |        |
| Hispanic or Latino             | 9.1%  | 5.2%   |

\* Clients in all race categories can identify themselves as Hispanic or Latino.

# **Statewide Special Populations**

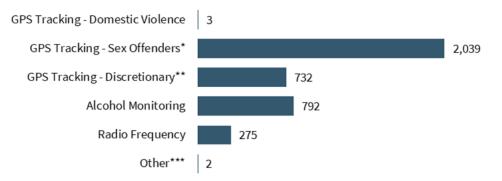

### Sex Offender Registry Program

The Sex Offender Registry Program (SORP) is responsible for monitoring and tracking clients convicted of certain sex crimes. In addition, they provide information to promote community awareness and increase public safety. The table below describes the SORP population as of June 30, 2022.

| Description                           | Number of Registrants |
|---------------------------------------|-----------------------|
| Type of Conviction                    |                       |
| Adult                                 | 25,632                |
| Juvenile Adjudication or Minor        | 551                   |
| Total                                 | 26,183                |
| Supervision Status                    |                       |
| Incarcerated                          | 5,652                 |
| Not Incarcerated (Total)              | 20,531                |
| Active Community Supervision          | 6,321                 |
| Terminated from Community Supervision | 14,210                |
| Total                                 | 26,183                |

### **Client Monitoring Population**

The DOC Electronic Monitoring Center provides centralized electronic monitoring for clients as an alternative to incarceration. The data below is current as of July 1, 2022.

\* Includes juveniles

\*\* Includes sex offenders and non-sex offenders

\*\*\* Includes Sobrieter, Radio Frequency paired with Sobrietor, transdermal alcohol monitoring, and some older alcohol monitoring devices are being phased out.

# **Programs and Education**

Also known as Purchase of Goods and Services (POGS), these funds are used to purchase products or services for the benefit of clients. This table gives, for each program type, its total cost in fiscal year 2022, and its proportion of the total POGS budget.

| Description                                       | Amount        | %      |
|---|---------------|--------|
| Residential Services Programs (RSP)*              | \$13,961,827  | 44.7%  |
| Transitional Housing Services (THS)               | \$4,453,161   | 14.3%  |
| Substance Use Disorder Services (SUD)             | \$2,462,954   | 7.9%   |
| Sex Offender Treatment Services (SOT)             | \$2,113,940   | 6.8%   |
| Supportive Housing Services (SHS)                 | \$1,662,395   | 5.3%   |
| Shorter Term Housing (EH, STH, SH)                | \$1,378,559   | 4.4%   |
| Community Transition Services Centers (CTSC)      | \$1,106,643   | 3.6%   |
| Cognitive Behavioral Programs (CBP)               | \$659,506     | 2.1%   |
| Domestic Violence Services (DV)                   | \$643,209     | 2.1%   |
| Employment, Community Service & Vocational        | \$572,988     | 1.8%   |
| OWI Services (Courts, Assessments, IDP, SUS)      | \$555,697     | 1.8%   |
| Drug Treatment Courts                             | \$347,988     | 1.1%   |
| Miscellaneous Goods and Services                  | \$294,287     | 0.9%   |
| Community Reintegration Services (CPOP)           | \$291,276     | 0.9%   |
| Medication Assisted Treatment (MAT)               | \$271,449     | 0.9%   |
| Substance Use Screening (SUS)                     | \$256,785     | 0.8%   |
| Anger Management Services (AM)                    | \$122,844     | 0.4%   |
| SOT Alternative to Revocation Programs (ATR)      | \$43,100      | 0.1%   |
| Wisconsin Tribal Community Reintegration Programs | \$9,517       | <0.1%  |
| Psychiatry Services (PSYCH)                       | \$7,486       | <0.1%  |
| Total   | \$ 31,215,611 | 100.0% |

\* Also includes Community and Residential Programs (CRPs)

### **Program Standards**

With the support of DOC Bureau of Technology Management, the Program Data Collection System Advisory Committee added new report options and additional data columns in existing reports; revised the service and program types to align with STAR program codes; added "virtual" and "telehealth" terms to appropriate services; made data quality updates to Windows to Work (W2W) program information; and integrated changes to minimize human error by providers. Super Admin Users now have the ability to update program or service types, update residential capacities, address data errors without the involvement of BTM support, and run utilization reports for programs.

# Budget, Revenue, and Expenses

### **Fiscal Year Budget**

This table includes total General Purpose (GP) Revenue (e.g., tax dollars) allocated to DCC, as well as Program Revenue (e.g., client supervision fees) that support operations.

| Description                       | GP Revenue* | Program Revenue* | Total     |
|-----------------------------------|-------------|------------------|-----------|
| Total Budget                      | \$220.8 M   | \$14.3 M         | \$235.1 M |
| Client Daily Cost                 | \$9.56      | \$0.14           | \$9.70    |
| Full Time Equivalency (Positions) | 1,949.38    | 11.70            | 1,961.08  |

\*Individual amounts may not add up to totals, due to rounding.

### **Payments Collected from Clients**

### Court Obligations

Any payment ordered by a court in connection with a criminal case is collected by either the court itself or by the DOC; payments are reissued as statutorily required. Some payments are held until a payee can be identified; other payments are used to cover administrative costs.

| Type of Court Obligation                        | Amount Collected |
|---|------------------|
| Restitution                                     | \$4,716,193      |
| Court, Attorney Fees, Fines & Other Court Costs | \$2,822,399      |
| Victim/Witness & DNA                            | \$2,039,476      |
| Surcharge & General Funds                       | \$133,848        |
| Total   | \$9,711,916      |

### Supervision Fee Payments

Clients are required to make regular monthly payments while under supervision. These funds are used, in lieu of tax dollars, to partially fund DCC operations.

| Type of Payment         | Amount Collected |
|-------------------------|------------------|
| Regular Monthly Payment | \$6,163,308      |
| Tax Refund Intercept*   | \$1,125,405      |
| Total                   | \$7,288,713      |

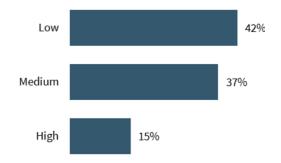

\* Wisconsin tax refund and state lottery winnings intercepted from clients who did not make their regular payment.

# **Client Risk Level and Criminogenic Needs**

The following graphs reflect the risk level and needs of the 64,219 clients that, as of June 30, 2022, had completed a risk-needs assessment. The DOC utilizes the COMPAS assessment, which is a evidence-based risk assessment that identifies clients' risk and criminogenic needs. It is used to provide effective supervision and treatment.

### **Client Risk Level**

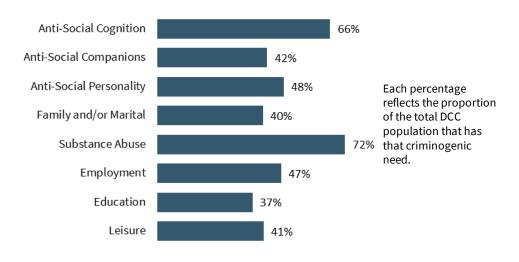

The client risk level represents a calculated risk to re-offend. It is used, in part, to determine how closely clients are supervised.

The total percentage is less than 100%, because some clients were missing a risk assessment at the time of the report (≈6%).

### **Criminogenic Needs**

Criminogenic needs are attributes of clients that are linked to criminal behavior. Effective correctional treatment targets these dynamic criminogenic needs through interventions and case plans.

Wisconsin Department of Corrections

### **Increase in Supportive Housing Services and Virtual Programming**

As part of the Division's strategy to review responses to violations and reduce revocations, the Division expanded community-based Alternative to Revocation programs and services. In FY21, a new service model, referred to as Supportive Housing Services (SHS), was developed and implemented to address stabilization factors for clients who may need addiction recovery services and support. In FY22, the Division of Community Corrections spent \$207,052.25 for SHS services in Regions 1 and 3. DCC currently has 44 SHS beds available: Turning Point in Janesville (Region 1) has 20 beds and Swigart House in Milwaukee (Region 3) has 24 beds.

SHS services are reserved for individuals who are under supervision of the Wisconsin Department of Corrections, experiencing residential instability or homelessness, and are able to regain stability with moderate treatment intervention, assistance, and services utilization within a 120-day period. An SHS program is also in development in Marathon County (Region 6) and is expected to open mid-FY23. DCC will continue to evaluate the need to add more SHS programs throughout the state.

In addition, the COVID-19 pandemic changed the landscape for program delivery in DCC. Not only was there a need to expand virtual programming for our clients, but needs for Domestic Violence programming increased as well. DCC successfully expanded virtual programs, including five additional groups for Domestic Violence Treatment and Substance Use Disorder treatment services for clients. In addition, DCC developed a Statewide Virtual Services Guide to assist staff in identifying resources that are available to our clients based on needs regardless of the county of residence.

### **Residential Treatment Facilities**

DCC continues to respond to the need for residential treatment facilities (also known as Residential Service Programs [RSPs]) around the State. There was an opening of a brand new RSP in Spring 2022 that offers specialized services for dual diagnosis women, especially mothers. Bethany Recovery Center (BRC) was established in Oconomowoc, Wisconsin, and provides evidence-based services that target individual criminogenic needs based on risk, need, and responsivity factors. BRC serves 18 female correctional clients, who are medium to high risk for recidivism. The RSP provides a residential treatment environment with a trauma-informed approach to care that includes core service components, support, and supervision. Bethany Recovery Center is licensed as a Community Based Residential Facility (CBRF-DHS 83) as a Class A ambulatory facility. Bethany Recovery Center is also licensed under the Department of Health Services as a Medically Monitored Treatment (MMT) and a Transitional Residential Treatment (TRT) program.

### **Expansion of Certified Peer Specialist Services**

In an effort to expand the service continuum of care for DCC clients, FY22 saw the expansion of Certified Peer Specialist services in Regions 3, 6, and 7. The role of a Certified Peer Specialist is to build relationships with and provide encouragement for correctional clients by offering support services, such as mentorship and coaching. The Certified Peer Specialist strives to develop internal and external relationships, working in collaboration with local police departments, the Wisconsin Department of Corrections, employment organizations, and community organizations. The Certified Peer Specialist assists participants in identifying specific and relevant community resources that are related to individualized recovery and support, and that are linked to reducing recidivism. In Region 6, the Certified Peer Specialists, referred to as Recovery Navigators there, work under the authority of Northwoods NiiJii Enterprise Community (NNEC) to provide Substance Use Disorder services to tribal members in Vilas County). Recovery Navigators and Certified Peer Specialists have a basic understanding of community reintegration and recovery processes, including knowledge of the challenges, issues, opportunities, and concerns faced by justice-involved individuals. There were 12 participants in this program during FY22. Efforts are already underway to expand the Certified Peer Specialist Program into the remaining Regions in FY23.

### Sex Offender Treatment ATR Program Resumed

In FY22, after pausing services during the pandemic, the Statewide Institutional Sex Offender Treatment (SOT) Alternative to Revocation (ATR) program resumed operations at Racine Correctional Institution (RCI). The SOT ATR program is a 9-week, openended program housed at RCI and facilitated by Henger Enterprises. This program is based on a cognitive-behavioral model, blending in education-based treatment with relapse prevention and schema therapy. It teaches strategies and techniques for clients to address their Dynamic Risk Factors and thinking errors, and provides treatment to target the behaviors leading to their initial violation. The RCI SOT ATR focuses on the violations that occurred in the community that resulted in this ATR; it is not meant to replace SOT in the community. At the end of the program, a Discharge Summary includes recommendations for additional treatment, as needed. To successfully complete the program the individual must:

- 1) Identify Dynamic Risk Factors that led to the violation behavior.
- 2) Generalize interventions and social skills across a variety of situations.
- 3) Develop a Re-offense Prevention Plan and share this with the agent of record.

There were 11 participants in this program during FY22.

### **DCC Opioid Initiatives**

DCC continues to look for ways to provide a proactive and effective response to the Opioid Epidemic. In FY22, the previous Opioid Initiatives developed in FY21 continued. Some of these initiatives have been expanded and others have been added. The following are several examples of DCC's additional responses and/or expansions to current initiatives:

- Naloxone distribution to identified at-risk clients at-risk was expanded to include all regions of the state.
- Nalox-Zone Boxes were installed in several DCC office lobby areas for clients to easily access naloxone.
- DOC hosted their first virtual staff training conference on Opioids, Harm Reduction, Addiction Stigma, Impact on Children, Staff Wellness, and Telemedicine.
- Training videos on Harm Reduction and Fentanyl were created to educate staff.
- An educational brochure on Fentanyl was developed and placed in DCC office lobby areas.
- An education document was created for DCC providers to understand unique circumstances surrounding treatment and harm reduction for clients reentering the community after incarceration.

- The DOC Overdose Death Review Team continues to complete monthly overdose death reviews. Cases are reviewed, gaps are identified, and recommendations are made to promote change in policies, procedures, and practices to save the lives of clients.
- The DOC Opioid Advisory Team continues to provide support and assistance to staff with difficult opioid cases. They also began reviewing reported non-fatal overdoses from the previous week that had similarities to cases reviewed by the DOC Overdose Death Review Team.
- Expansions to funding for Medication Assisted Treatment (MAT) enabled coverage across the state of all forms of MAT for clients on supervision.

DCC continues to review gaps in services and develop additional resources to combat the opioid crisis that is plaguing our communities. Several initiatives are underway and are continuing to be developed as we move into FY23. For example, DCC has begun exploring mobile MAT options for areas that do not have available resources; researching contract language to address best standards and practices for Sober Living Houses; and is reviewing the distribution of Fentanyl Test Strips as a harm reduction strategy.

### **DCC Treatment Unit**

The DCC Treatment Unit was formed in FY21, and spent part of FY22 continuing its formation and then planning for service delivery. The DCC Treatment Unit began receiving its first clients in FY22. It provided a Cognitive Behavioral Interventions – Interpersonal Violence (CBI-IPV) curriculum to clients with a Domestic Violence program need. Developed by the University of Cincinnati Corrections Institute (UCCI), this curriculum helps correctional agencies implement evidence-based practices, improve public safety, and reduce recidivism for individuals engaged in interpersonal violence and aggression.

The DCC Treatment Unit, in collaboration with the DOC Reentry Unit and UCCI, began to pilot the new Cognitive Behavioral Interventions for Substance Use Open Enrollment (CBI-SUO) curriculum. Clients were first enrolled in March 2022. DCC treatment staff are the first in the nation to be using these materials, and are providing input into UCCI's curriculum. This version of programming allows clients to be enrolled whenever there is an opening, rather than wait until the end of a group cycle, which is current practice. Utilizing CBI-SUO will reduce wait times for individuals, ultimately assisting clients in a timelier manner, and simultaneously reducing waiting lists. Treatment staff have been providing feedback to UCCI through surveys and focus groups, and have been receiving coaching and group observations from UCCI staff. Taken together, this ongoing collaboration with UCCI has increased program fidelity and outcome measures. The first cohort of clients will complete CBI-SUO in FY23.

Work began in FY22 to develop a Contingency Management Pilot Program to supplement Substance Use Disorder (SUD) programming in the Treatment Unit. Funding from the Substance Abuse Block Grant was used to purchase incentives for clients meeting certain bench marks in SUD programming. The Contingency Management Pilot Program was developed and incentives purchased in FY22, and will begin implementation in FY23.

# **Increase in Public Reporting**

In collaboration with the DOC's Research and Policy Unit, DCC has launched several public dashboards that are updated on a regular basis. As more data becomes available, DOC's DCC and RPU will look into more ways to report data in a consistent and timely basis.

# Month-End Community Corrections Supervision Population Dashboards

These dashboards allow users to examine month-end snapshots of the community corrections population by a variety of demographics, such as gender, race, and age, supervision location, most serious offense, supervision case type, and level of supervision. These dashboards can be found at <u>https://doc.wi.gov/Pages/DataResearch/</u> <u>DCCMonthEndDB.aspx</u>.

### Holds and Short-Term Sanctions Dashboards

These dashboards provide weekly snapshots of data related to holds and short-term sanctions that have occurred on and since March 2, 2020. These dashboards can be found at <a href="https://doc.wi.gov/Pages/DataResearch/HoldsShortTermSanctionsDB.aspx">https://doc.wi.gov/Pages/DataResearch/HoldsShortTermSanctionsDB.aspx</a>.

### **Revocations and Other Responses to Violations Dashboards**

These dashboards allow users to examine revocations, including rates, trends, and the reasons for revocations as well as trends in other responses to violations. These dashboards can be found at <a href="https://doc.wi.gov/Pages/DataResearch/">https://doc.wi.gov/Pages/DataResearch/</a> RevocationsResponsesDB.aspx.

### **Overdose Dashboards**

These dashboards provide a monthly snapshot of data related to suspected overdoses among clients on community supervision. These dashboards can be found at <u>https://doc.wi.gov/Pages/DataResearch/OverdoseDashboard.aspx</u>.
