PROCEDURES

I. General Guidelines – Staff

- A. Staff shall complete a DOC-2138 and submit to their immediate supervisor.
- B. Immediate supervisor shall review the request.
 1. Supervisor verifies a hazard assessment has been completed for this type of work/location and reviews what type of PPE is necessary.
 2. If a hazard assessment has not yet been completed, the supervisor shall work with the Health and Safety Committee to have one completed. This shall determine the proper PPE to make available to staff.
- C. Immediate supervisor is responsible for responding to staff.
 1. A request may be approved based on the completed hazard assessment.
 2. A request may be denied based on the completed hazard assessment, but other personal protective devices may be made available to staff for periodic tasks.
- D. Requests for prescription safety glasses shall be approved when both of the following criteria are met.
 1. Hazard assessment is completed and identifies the need for PPE.
 2. Tasks are performed for at least 50% of the employee's time, as identified by the classification's job duties and the position description.
- E. Requests for prescription safety glasses shall be denied when any of the following reasons exist:
 1. The hazard assessment does not support the need for PPE for this task.
 2. The task is deemed periodic in nature and not routine.
 3. The task is not completed more than 50% of the time, as identified by the job classification or the position description.
 4. There is the ability to assign or make non-prescription glasses, goggles or face shields available to be worn by staff. These may be worn alone or over a staff's existing personal eye glasses.
