<b>Subject:</b> DOC Responder Use		

DOC Responder Portal Notification – A contact feature on DOC Responder that allows for the notification of designated staff in an emergency by e-mail that a DOC Responder site has been opened that they have been given access.

ICP – Incident Command Post

NIMS – National Incident Management System

PERS – Preparedness and Emergency Response Section

SEOC – State Emergency Operations Center

Super User – User given permissions by the SharePoint Administrator/designee and is trained to deal with administrative tasks involved in giving site creator rights to other users and other DOC Responder related tasks for a facility.

WebEOC – A web-based information management system that provides a single access point for the collection and dissemination of emergency or event-related information.

WEM – Wisconsin Emergency Management

## **PROCEDURE**

### **I. Overview**

- A. DOC shall use DOC Responder in establishing a common operating information gathering source.
- B. The URL for the DOC Responder site is:  
<https://sp.doc.responder.wisconsin.gov/portal>
- C. An employee can be designated to become a DOC Responder site creator by their appointing authority/designee or if assigned as a facility NIMS coordinator.
- D. DOC Responder site permissions shall be granted by anyone with manager rights to the site so designated users are able to access the site.

### **II. DOC Responder Application Permissions**

Individual sites are created within DOC Responder. Permissions to these sites shall be assigned to each individual user. The following security roles are available:

- A. Reader – gives credentials allowing the user to view, but not edit or add information to the site.
- B. Contributor – gives credentials allowing the user to view, add, edit and delete entries on the sites to which they have access.

<b>DAI Policy #:</b> 600.00.06	<b>New Effective Date:</b> 02/14/22	<b>Page</b> 3 of 5
<b>Chapter:</b> 600 National Incident Management System – Incident Command System		
<b>Subject:</b> DOC Responder Use		

- C. Manager– gives credentials to authorize other users’ access to the site and level of permissions.
- D. Site Creator – gives credentials to authorize the user to create and delete any site they created.
- E. BTM SharePoint Administrator – gives credentials allowing the user to make changes to all aspects of the DOC Responder Portal and individual sites.
- F. The site creator or user given manager credentials shall provide access to the DOC Responder site as deemed necessary.
- G. The PERS team have administrative permissions to DOC Responder and shall have access to all sites.

### **III. Delegated Authority for Granting Permissions**

- A. Warden/designee shall approve site permissions for staff.
- B. Warden/designee shall monitor and have a system to provide appropriate levels of access to requesting users.

### **IV. DOC Responder Access**

Manager approved users shall access the DOC Responder site through the email link received from the DOC Responder Portal, or at <https://sp.doc.responder.wisconsin.gov/portal>. Users shall only have access to sites for which they have been given permissions.

### **V. Create a New Site in DOC Responder**

- A. When the EOC or a facility ICP is activated for a non-training event, a site shall be created in DOC Responder by the designated facility site creator.
- B. When the EOC or a facility ICP is activated for a training event, or exercise, it is recommended a site be created in DOC Responder.
- C. In the event a facility site creator is not available, the PERS on-call shall create the site and provide access to other users as directed.
- D. Incidents or events which may require a DOC Responder site to be created include, but are not limited to, the following:
  - 1. ERU call-up.
  - 2. ICP activation.
  - 3. COOP/COG event.
  - 4. Weather emergency.
  - 5. Disturbance.
  - 6. Man-made or natural disaster.
  - 7. Planned training event or exercise.
  - 8. Others as determined by the appointing authority.

<b>Chapter:</b> 600 National Incident Management System – Incident Command System		
<b>Subject:</b> DOC Responder Use		

## **VI. DOC Responder Training**

- A. User Training - Employing units may schedule DOC Responder classes provided by PERS; or if a NIMS Coordinator/other staff member has been trained by PERS in site creation, they may provide the training to their staff.
- B. Site Creator Training – shall be provided by PERS at the request of employing units.

## **VII. User Support**

- A. BTM SharePoint Administrator or PERS shall provide technical support for DOC Responder.
- B. All user questions shall first be referred to PERS prior to the BTM SharePoint Administrator.

## **VIII. Historical Record**

- A. The information entered into DOC Responder is viewed as a historical record and possibly a public record; therefore,
  - 1. For a non-training event it shall not be altered after the site has been closed upon completion of the incident or event.
  - 2. For a training event, it may be altered or deleted.
- B. Event log entries shall contain the date, time and name of the person who created and last modified an entry.
- C. It is recommended sites print their DOC Responder situation report, event log and relevant documents (photos, incident action plan, etc.) after the conclusion of the event/incident.

## **IX. Inter-agency Communication**

- A. WebEOC is the preferred common operating picture tool used by Wisconsin Emergency Management and community partners.
- B. WebEOC trained PERS staff or designees who are serving as a liaison at SEOC shall be the only personnel disseminating information in that system.
