

Alberta Darling

Wisconsin State Senator

Co-Chair, Joint Committee on Finance

Items for Consideration during Grant Application Discussion:

- Each individual coming into one of these facilities should have an assessment done of their education, mental health, and family support system.
- Counties interested in an SRCCCY should review DOC Emergency Rule 347 which was crafted with input from the Juvenile Justice Study Committee. This rule outlines the administrative rules governing the services and programming provided to juveniles in SRCCCYs.
- Counties need to take a detailed look at their budget for these facilities and report back to the Grant Committee with a breakdown in costs.
- The goal of these facilities should be to reduce the number of youth in them. Therefore I think it's appropriate to start to look at what possibilities these facilities can have as the population of youth reduces.
