**INTRODUCTION**

The Wisconsin Department of Corrections (WI DOC or agency) has a zero tolerance policy for sexual abuse and sexual harassment in all of its confinement facilities. Wisconsin is committed to preventing, detecting and responding to sexual abuse and sexual harassment. This report is an overview of aggregated data; facility and agency achievements; and corrective action within the Department and Division of Adult Institutions as it pertains to the Prison Rape Elimination Act (PREA).

**BACKGROUND**

The Prison Rape Elimination Act was signed into law in 2003 after unanimous support from Congress. PREA was the first federal law to address sexual abuse in confinement facilities. The law created the National Prison Rape Elimination Commission and charged it with developing standards for the elimination of sexual abuse and sexual harassment in confinement.

The federal PREA standards were published on June 20, 2012, and became effective on August 20, 2012. The standards address sexual abuse and sexual harassment of inmates and youth perpetrated by other inmates or youth or staff, contractors or volunteers. There are four sets of standards which encompass adult prisons and jails, lockups, juvenile facilities, and community confinement facilities.

**PURPOSE**

The Prison Rape Elimination Act requires that each agency collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. The agency shall, then, aggregate the incident-based sexual abuse data at least annually [§115.387(a)(b)]. In addition to the required data, WI DOC compiles data pertaining to sexual harassment allegations.

This report is intended to:

- Identify any problem areas for each facility and the agency;
- Describe corrective action taken on an ongoing basis for each facility and the agency;
- Compare the current year’s data and corrective actions to previous year(s); and
- Assess the facility and agency’s progress in addressing sexual abuse and sexual harassment.

AGENCY ACHIEVEMENTS

The Wisconsin Department of Corrections has been working to prevent, detect and respond to sexual abuse and sexual harassment in confinement for many years; long before the federal standards became effective. Since 2007, WI DOC has employed a full time PREA Director to coordinate and oversee the agency’s implementation and compliance efforts. Additionally, each facility has a designated staff member who, in addition to their regular duties, is assigned as the PREA Compliance Manager and is responsible for the compliance efforts of the facility. Each facility has also designated a staff member who, in addition to their regular duties, is assigned as the PREA Victim Services Coordinator. The Victim Services Coordinator is responsible for connecting victims to internal and external emotional support services and monitoring them for retaliation.

Training and technical assistance is fundamental to WI DOC and its PREA Office. For many years, WI DOC has educated staff, contractors and volunteers as well as outside stakeholders, including sexual assault service providers, law enforcement and prosecutors, on PREA and related policy application. The agency provides comprehensive education to inmates and youth on PREA, which includes the distribution of a handbook detailing their rights, strategies to stay safe, a description of reporting methods and support resources. Further, WI DOC has encouraged staff members to participate in the National PREA Resource Center Auditor Trainings; the agency has sponsored the attendance of 23 staff members since the training’s inception.

The agency has created multiple methods for staff, inmates and youth to report imminent harm and incidents of sexual abuse and sexual harassment; two of those methods include internal and external reporting hotlines. Following a report of sexual abuse, WI DOC has implemented coordinated response protocols, which includes maintaining evidence preservation kits, developing an integrated allegation and investigation tracking database, and collaborating with outside sexual assault service providers to provide emotional support to victims. All protocols and procedures are consistent with the PREA standards. Each policy is rooted in an effort to prevent, detect and respond to incidents of sexual abuse and sexual harassment.

Finally, as both an affirmation of WI DOC’s PREA compliance progress and acknowledgment of its room to grow, the agency implemented a system of internal mock audits to prepare facilities for US Department of Justice (DOJ) audits.
2016 Achievements

In 2016, Wisconsin Department of Corrections continued to build upon implementation and compliance efforts.

DISCUSSION

WI DOC hypothesizes that the increase in total allegations from 2015 to 2016 has less to do with actual increases in sexual abuse or sexual harassment incidents and more to do with enhanced inmate education, more accessible reporting methods, timely and thorough investigations and improved supportive services. With increased awareness, feelings of fear or stigmatization towards reporting may slowly be decreasing, thus increasing the level of reporting. The small increase in allegations is a reflection of WI DOC’s robust commitment to the Prison Rape Elimination Act and its evolving policies and procedures; it would not be a surprise to see this upward trend continue in the immediate future.

Looking forward, the Department anticipates building on this momentum by:

- Implementing an automated risk screening tool and incompatibility notification;
- Finalizing an integrated investigation tracking database;
- Participating in a multi-state circular auditing consortium;
- Formalizing facility and support service agency partnerships;
- Training additional investigators;
- Implementing a system of staff retaliation monitoring;
- Monitoring contracts for PREA compliance;
- Creating an inmate education video specific to Wisconsin;
- Updating and creating policy where applicable; and
- Providing biennial refresher training to all staff.

These action items, in concert with the Wisconsin Department of Correction’s commitment to zero tolerance will improve our ability to prevent, detect, and respond to sexual abuse and sexual harassment in our confinement facilities.
