LETTER FROM THE SECRETARY | LOOKING FORWARD

In 2025, the Wisconsin Department of Corrections continued to strengthen our commitment to the Prison Rape Elimination Act (PREA) and to our fundamental responsibility to provide safe and secure environments for everyone who lives and works within our correctional system. This work is grounded in a simple principle: preventing sexual abuse and sexual harassment requires more than policies, training, and audits. It requires a culture where safety, respect, accountability, and human dignity are reflected in everyday interactions.

PREA provides an important framework for this work but compliance is not the destination. It is the foundation upon which meaningful cultural change can be built. Prevention becomes strongest when it is woven into how we lead, communicate, intervene, and care for one another. Culture is shaped not only by how we respond to extraordinary events but by the ordinary moments in which staff demonstrate professionalism, concerns are taken seriously, and accountability is consistently upheld.

We recognize this mission is challenging. But we remain steadfast in our responsibility to protect those entrusted to our care while supporting the people responsible for carrying out this important work. Prevention requires both compassion and courage; compassion for those who may be vulnerable to harm and courage to address the behaviors and conditions that undermine safety.

Wisconsin is proud to contribute to this work beyond our own agency. Through collaboration with correctional partners across the country, including the National Association of PREA Coordinators, we have an opportunity to share what we are learning while learning from others. This national engagement reflects Wisconsin's commitment not only to implementing PREA well but to advancing practical and sustainable approaches to prevention and culture change across the field.

Looking ahead, we will build upon the progress of 2025 by strengthening prevention, supporting our staff, and deepening meaningful wellbeing throughout the Department. One where safety is not simply a requirement but a lived experience; where dignity is fundamental; and where every person living and working in our facilities has a role in fostering environments grounded in humanity, respect, and accountability.

Jared Hoy
Secretary
Wisconsin Department of Corrections

INTRODUCTION

The State of Wisconsin is committed to preventing, detecting, and responding to sexual abuse and sexual harassment in confinement. The Wisconsin Department of Corrections (WI DOC or agency) has zero tolerance for sexual abuse and sexual harassment in all of its confinement facilities. This report is an overview of agency and facility aggregated data, achievements, and corrective action as it pertains to the Prison Rape Elimination Act (PREA).

Background

PREA was signed into law in 2003 after unanimous support from Congress. The act was the first federal law to address sexual abuse in confinement facilities. The law created the National Prison Rape Elimination Commission and charged it with developing standards for the elimination of sexual abuse and sexual harassment of inmates and youth in confinement¹.

Federal PREA standards were published on June 20, 2012 and became effective on August 20, 2012. There are four sets of standards that provide direction for adult prisons and jails, lockups, juvenile facilities, and community confinement facilities. The prisons and jails standards apply to the WI DOC's 36 adult facilities while the juvenile facilities standards apply to the agency's two youth facilities.

Purpose

PREA requires that each agency collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions. The agency shall then aggregate the incident-based sexual abuse data at least annually and review it to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training. In addition to data pertaining to sexual abuse, WI DOC also compiles and publishes data pertaining to sexual harassment allegations.

This report is intended to:

- Identify any problem areas for the agency and facilities;
- Describe corrective action implemented by the agency and facilities;
- Compare sexual abuse/sexual harassment allegation data and corrective actions of the current year to the previous year; and
- Assess facility and agency progress in addressing sexual abuse and sexual harassment in confinement.

AGENCY AND FACILITY ACHIEVEMENTS

Historical

The WI DOC has been working to prevent, detect, and respond to sexual abuse and sexual harassment in confinement for many years. Since 2007, WI DOC has employed a full time PREA Director (Coordinator) to coordinate and oversee the agency's implementation and compliance efforts. To complement this effort, each facility has a designated staff member who, in addition to their regular duties, is assigned as the PREA Compliance Manager (PCM) and is responsible for facility-level compliance. Each facility also has a Victim Services Coordinator (VSC) who, in addition to their regular duties, is responsible for connecting victims to internal and external emotional support services and monitoring them for retaliation.

Training and technical assistance is fundamental to WI DOC and its PREA Office. For many years, WI DOC has educated staff, contractors, and volunteers as well as outside stakeholders, including sexual assault service providers, law enforcement, and prosecutors, on PREA and related policy application. The agency provides comprehensive PREA education to inmates and youth, which includes the distribution of a handbook detailing their rights, strategies to stay safe, a description of reporting methods, and support resources. Further, WI DOC has encouraged staff members to participate in the National PREA Resource Center Auditor Trainings; the agency has sponsored the attendance of 31 staff members since the training's inception. The agency's PREA Director is Co-Chair of the agency's Investigation Committee and Chair of the National PREA Coordinator's Working Group.

The agency has created multiple methods for staff and offenders to report imminent harm and incidents of sexual abuse and sexual harassment; two of those methods include internal and external reporting hotlines. Following a report of sexual abuse, WI DOC implements a coordinated response protocol, which includes maintaining evidence preservation kits, documenting the report in an integrated allegation and investigation tracking database (Sensitive Information Network Communication; SINC), and collaborating with outside sexual assault service providers to provide emotional support to victims. All protocols and procedures are consistent with federal PREA standards. In 2021, the agency shifted responsibility of staff-on-offender sexual abuse and sexual harassment investigations from facility-based investigators to the Internal Affairs Office and, in 2023, expanded facility-level compliance to include regional PREA compliance managers. Each step forward, including policy, is rooted in an effort to prevent, detect, and respond to incidents of sexual abuse and sexual harassment and aligns with the agency's zero tolerance mission.

¹ Inmates and youth are collectively referred to herein as “offenders”, unless noted, at which time they will be referred to as inmate or youth. As an agency, WI DOC has moved away from the term “inmate,” in favor of “person in our care” or “resident” in an effort to dignify the humanity of confined people. This report continues to use “offender” and “inmate” to align with federal PREA legislation.

² Staff, contractors, and volunteers are referred to herein as “staff” or “staff members.”

³ As a result of closing ongoing cases, 2024 data (total and by disposition) presented in this report (p.8) may be slightly different than the figures published in the preceding 2024 WI DOC Annual Report.

⁴ Ethan Allen School, operated by WI DOC, closed in 2011 and 1974, respectively. Alleged incidents of sexual abuse or sexual harassment reflected in the table occurred while the facilities were operational; the allegations were received and investigated in 2025.

⁵ A youth facility managed by WI DOC Division of Juvenile Corrections. The remaining facilities are adult facilities managed by WI DOC Division of Adult Institutions.

⁶ An adult confinement facility managed by Wisconsin Department of Health Services. This facility serves WI DOC inmates and is, in part, staffed by WI DOC security staff.
