## AUDIT FINDINGS

### **Narrative:**

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Prison Rape Elimination Act on site audit of the Felmers O. Chainey Correctional Center (FCCC) was conducted on June 18, 2017, by Veronica Moore [Lead Auditor] and Howard Ray Jr. from Maryland, U.S. Department of Justice PREA Auditors for Adult Jails and Prisons. The audit was conducted as part of an interstate consortium consisting of Pennsylvania, Maryland, Michigan, and Wisconsin. Audit notices were posted through the facility six (6) weeks prior to the onsite review. Leigha Weber, Wisconsin Department of Corrections PREA Analyst verified by email that the notices were posted and during the onsite tour notices were observed through the facility.

The audit was conducted utilizing the Online Audit System (PREA OAS) developed by the PREA Resource Center. The FCCC staff was requested to complete the Pre-Audit Questionnaire and it was provided to this auditor, along with supporting documents that were uploaded to the PREA OAS prior to the onsite audit phase. The pre-Audit preparation by the auditors included a review of all documentation and materials submitted by the facility along with the data included in the Pre-Audit Questionnaire. The documentation review included agency policies and procedures, forms, education materials, training curriculum, organizational charts, posters, brochures and other PREA related materials that were provided to demonstrate compliance with the PREA standards.

On Monday, June 18, 2017, both auditors entered FCCC at 8:00a.m. and an entrance briefing was conducted with Superintendent Gary Mitchell, Captain Gegare and Leigha Weber, Wisconsin DOC PREA Program and Policy Analyst.

After the entrance briefing, Howard Ray toured the facility and later conducted staff interviews and Veronica Moore conducted staff and inmate interviews. A staff roster (names, shift, job classification) and a current inmate roster was provided to the auditors were provided a private office and the conference room for interviews and other related work. Inmate and staff interviews were conducted using the recommended U.S Department of Justice PREA Audit protocols. Inmate interviewees were selected based on their housing unit, special needs, and randomly, prior to beginning the interviews. Staff interviewees included specialized staff and random staff, from various shifts.

During the tour the auditor, considered the facility's supervision level, blind spots within areas, compliance with policies, and the overall safety of inmates in the facility. The auditor observed the placement of cameras, staff deployment and supervision, housing unit layout to include showers and bathrooms, placement of PREA posters and other PREA related information. There were adequate number of signs placed in the facility providing PREA information and the right to be free of sexual abuse and sexual harassment. FCCC has cameras which can be monitored from the main control desk and in the captain's office. The cameras provide a very high level of coverage and monitor the safety of the inmates.

The Felmers O. Chaney Correctional Center is organized, sanitary and well managed. The facility utilizes cameras throughout, in addition to the deployment of the staff. The facility staff and inmates were well versed in their understanding of PREA and their duties and responsibilities regarding the PREA standards. The auditors were provided with additional documentation, as requested during the audit and given access to areas of the facility, as needed and requested. An exit briefing was conducted on the same day, Monday, June 18, 2017 with Superintendent Gary Mitchell, Captain Gegare and Leigha Weber Wisconsin DOC PREA Program and Policy Analyst.

## AUDIT FINDINGS

### **Facility Characteristics:**

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Felmers O. Chaney Correctional Center (FCCC) is comprised of one building which includes two inmate living units which contain a library, a day room/TV viewing area and a weight room. The administration area consists of offices for office support staff, health service staff, social workers and supervisors. The facility also has a kitchen and dining area. A storage shed, outside in a fenced yard area, stores the maintenance equipment and center supplies. Video Cameras are present throughout the facility and provide visual coverage of inmate and staff movement and can be viewed in the control area and in the Superintendent and the Captain's offices. The facility does have blind spots, specifically in the basement where frequently used supplies are stored. Based on this assessment, the correctional sergeants and management make frequent rounds to ensure appropriate monitoring of the areas. The basement also serves as a tornado shelter area for visitors and staff. The Temporary Lock Up (T.L.U.) is located next to the control room.

technologies and whether they have enough staff to ensure that Felmers can abide by the staffing plan.

115.13 (d) – Felmers’ log books reveal that supervisors are making rounds on all shifts. Interviews with supervisors and staff verified that rounds are unannounced. Additional interviews with staff substantiate that supervisors make unannounced rounds on all shifts and they occur at different times of the day so there is no pattern to the rounds. Wisconsin DOC Prison Rape Elimination Act Audit §115.13 (d) -1 and Executive Directive 72: Sexual Abuse and Sexual Harassment in Confinement (PREA) both prohibit staff members from alerting or notifying other employees that supervisory rounds are occurring.

The facility is an all male facility therefore there are no searches of female inmates by male officers.</p> <p>115.15 (c) - Due to the makeup of the staff, the facility has not had to conduct any cross gender strip searches or cross-gender visual body cavity searches in an exigent circumstance. Agency policy (Executive Directive 72) requires that if the need were to occur, the facility would document those searches. Based on interviews, staff was aware of this policy and the requirement to document such searches if this type of search was done.</p> <p>115.15 (d) – Wisconsin DOC Prison Rape Elimination Act Audit §115.13 (d) -1 and Executive Directive 72 establish policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances. Felmers has a blue light and a specific tone that is broadcast over the loud speaker system to announce the presence of female staff. This was used when the Auditor went on the tour and it was confirmed through inmate interviews that staff use this system and the inmates know what that tone symbolizes.</p> <p>115.15 (e) - Executive Directive 72, states that staff may not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmates’ genital status is unknown, they may determine the inmates’ genital status through conversations with the inmate, reviewing medical records or by learning information that was part of a broader medical examination conducted in a private setting by medical personnel. This was confirmed by staff and inmate interviews.</p> <p>115.15 (f) - The Wisconsin Department of Corrections has an extensive lesson plan dealing</p>

with body searches. Lesson Title: Introduction to Body Searches goes into great detail on how to conduct Pat, Strip, Body Cavity, and Body Content Searches. Staff is trained how to conduct these searches in addition to searches of transgender and intersex inmates so they are searched in a professional and respectful manner that is least intrusive as possible but still meets security needs. This training was confirmed by staff interviews

If an individual is considered a direct hire, the facility would do a criminal background check. For all others, the Central Office would complete a criminal background check. A sample of new hires and staff that was promoted was reviewed to ensure that these background checks were being done.</p> <p>115.17 (d) - WIDOC performs a criminal background check before enlisting the services of any contractor. This was verified by interviews and supporting documentation.</p> <p>115.17 (e) - WIDOC has a system in place to ensure that employees have a criminal background check every 5 years.</p> <p>115.17 (f) - The Agency/Facility both ask all applicants and employees who may have contact with inmates directly about previous sexual misconduct in written applications. WIDOC also requires current employees to disclose any such misconduct as they occur.</p> <p>115.17 (g) - Agency policy and interviews with HR staff confirm that material omissions regarding sexual misconduct, or the provision of materially false information are grounds for determination.</p> <p>115.17 (h) - Interviews with HR staff confirm that the agency will provide information on</p>
