

WISCONSIN DEPARTMENT OF CORRECTIONS

Governor Tony Evers / Secretary Jared Hoy

DATE: February 24, 2026

TO: All Visitors

FROM: Brian Cahak, Warden

A handwritten signature in black ink, appearing to read "Brian Cahak".

SUBJECT: Norovirus Outbreak

There is currently a Norovirus outbreak at OSCI.

How can it be prevented?

- Handwashing is the most important step to prevent the spread of norovirus. It is essential to wash hands after using the restroom and before touching food.
- Anyone with diarrhea or vomiting should stay home from work or school until symptoms are gone in order to prevent spreading norovirus to others.
- People with diarrhea or who are vomiting should not handle food, work in or attend day care centers or schools, or take care of patients in a health care facility until **48 hours after their symptoms are gone.**
- No vaccine is available to prevent norovirus infections.

Thank you for your cooperation during this time.
