WIR – Wisconsin Immunization Registry

PROCEDURES

I. General Guidelines

- A. Immunizations available include, but are not limited to:
 1. Td.
 2. Tdap.
 3. Hepatitis A.
 4. Hepatitis B.
 5. TWINRIX.
 6. Pneumococcal.
 7. Influenza.
 8. MMR.
 9. HPV.
 10. Shingrix
- B. Orders (individual by prescriber) or standing orders from the BHS Medical Director are required.
- C. A history of allergies or other medical conditions which may contraindicate vaccination shall be taken prior to the administration of immunizations.
- D. Before obtaining consent for vaccine administration, the health care provider shall check:
 1. EMR Health record immunization tab.
 2. WIR.
 3. Existing DPH-4702s.
 4. Available DOC-3218A.

DAI Policy #: 500.60.04	New Effective Date: 08/31/20	Page 3 of 5
Chapter: 500 Health Services		
Subject: Immunization Program		

- E. Patients shall be informed about the immunization, the disease for which the patient is being immunized, possible side effects and the schedule for future immunizations.
- F. The immunization specific VIS is required by federal law to be provided to the patient prior to administration of the vaccine.
- G. The patient shall sign the DPH-4702 prior to administration of the vaccine.
- H. Document administered immunizations on DPH-4702 and scan into health record in accordance with DAI Policy 500.50.02.
- I. Patients identified as high risk shall be prioritized when offering immunizations.
- J. Patients declining vaccinations shall sign a DOC-3220.

II. Influenza

- A. Directions and standing orders for the influenza vaccine program shall be sent to HSUs from the BHS Medical Director when in season.
- B. High risk patients shall be identified and offered immunization as soon as vaccine is available followed by all other patients.

III. Vaccine Handling and Storage

- A. Handling and storage of vaccines shall be in compliance with DPH policy and recommendations of the CDC.
- B. Vaccines shall not be stored in the refrigerator door.
- C. Each HSU shall have a system in place that shall prevent stockpiling of vaccine and only have on site the amount of vaccines needed for their current population.
- D. Return vaccines due to expire within three months to CPS.
- E. Monitoring temperatures of refrigerators and freezers storing vaccines shall be completed according to CDC vaccination storage guidelines and recorded on F-42024 twice daily.
