09 NOTICE OF APPREHENSION REQUEST CANCELLATION

DOC Warrants Section will cancel active apprehension requests in the CIB or NCIC systems under the following conditions:

- Receipt of an emergency cancellation by phone from a supervisor or regional office;
- As soon as it is verified a client is in custody with a confirmed HIT request from a law enforcement agency
- Receipt of a DOC-58 Cancellation in the Monitoring/Apprehension Tracking System (MATS)

The agent will cancel active apprehension requests through the DOC Warrants Section under the following circumstances:

- DCC staff place the client in custody
- The violation is resolved outside of a custodial setting

The Apprehension Cancellation must be submitted via a [DOC-0058](#) Apprehension Request as soon as the violation has been resolved or the client has been placed in custody. Failure to cancel can cause the arrest of persons no longer in violation status.

The supervisor will be notified from the Warrants Section via the Notice of Apprehension Request Cancellation.
